This issue will feature games played in the June Quads.

This round of newsletters is going directly from winter to summer omitting spring!

The purpose behind these newsletters is to include as many games as possible played among NPCC members irregardless of the strength of the players. We want to include everyone's games, not only the most challenging. Of course, some will be more instructive than others; however, they all will be permanently recorded for your review. Thanks to all for submitting games!
